

Bin Workstation/Storage Unit With Storage Trays

The metal storage racks are manufactured from 1" square steel tube with an epoxy powder coat paint finish. The unique tray runner module allows for it to be fixed to the welded tray rack framework maintaining the units strength and structural integrity. The top work surface is a sturdy dark gray wood laminate.

The solid color trays are manufactured from a High Impact Polystyrene and the clear trays are manufactured from ABS. Both are super tough grades of plastic giving excellent strength and wear characteristics. They also have a dual identification labeling system making storage and retrieval of items simple. Reversal of the tray allows the use of either labeling system. The ticket window system allows the use of name cards secured behind a clear clip on window. At the other end of the tray, an 'Easy Peel' stippled label area enables the application of adhesive labels that can be easily removed. The smooth internal surface of the trays allow for easy cleaning.

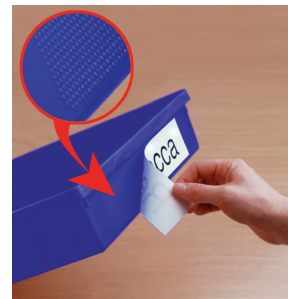

Trays Available In 7 Colors As Shown

- 'SW' models feature standard width 12 1/4" wide storage trays
- 'EW' Models feature extra wide 18 1/2" storage trays.
- Single depth trays are 16 1/4" D x 3" H
- Double depth trays are 16 1/4" D x 6 1/4" H

Glide & Tilt system allows drawer to be pulled out and held at an angle without falling out

Easy peel stipple area.

Ticket window (included)

Dividers are available as an accessory for the 12 1/4" single depth trays. Each 12 1/4" wide tray will accept 2 divider trays at the same time.
